ZeroMark AI — One-Page Executive Summary

> **The autonomous AI marketing department for SMBs and D2C brands.** One business profile in → 12-month organic-first growth plan, scheduled posts, real-time CRM, capped paid ads, and a daily AI Co-Pilot brief out.

The opportunity

- **₹4,000 Cr Indian SMB marketing-tools market** growing 32% YoY · global TAM $40B
- Founders today juggle **8+ tools (HubSpot, Buffer, ChatGPT, Mailchimp…)** costing ₹15-40K/mo before any campaign spend
- 70% of SMBs miss their lead targets because no system tracks daily pace
- Existing AI tools are generic prompt boxes — none ground on the user's persisted business profile, ICP, and pace data

What ZeroMark does

Input	Output
Business profile (name + industry + audience + budget)	12-mo plan + ICP + Market + SEO + PR + Content kits + Scheduled posts + Lead enrichment + Daily Co-Pilot brief

Core principle: Organic-first guarantee. Paid ads only fire if math demands it, inside a hard daily cap.

Differentiators

1. **Autonomous, not assistive** — daily Co-Pilot fires Slack/WhatsApp briefs and auto-schedules recovery content
2. **Multi-tenant OAuth done right** — one Developer App per provider serves unlimited customers (Buffer model)
3. **Indian payment-native** — Razorpay + UPI + WhatsApp + INR pricing (₹499/₹999) where competitors charge ₹3-15K/mo
4. **Real, not mocked** — production Meta Graph publishing, real LinkedIn/X/Facebook/Instagram posting, real Hunter+AI lead enrichment
5. **Encrypted-at-rest from day one** — every OAuth token Fernet AES-128

Pricing & unit economics

Tier	Price	Includes
Free	₹0	1 plan, 5 AI gens/day, free SEO audit
Basic	₹499/mo	Unlimited plans, 50 AI calls/day, 4 channels, A/B tester
Pro	₹999/mo	Everything + paid-ads autopilot + Co-Pilot Slack/WhatsApp

- **CAC target**: ₹500-1,500 via SEO + product-led referral
- **ARPU**: ₹999 (Pro takes ~30% of paying base)
- **Gross margin**: 85% (Groq LLM cost ≈ ₹40-60 per active user/mo)
- **Payback**: < 2 months

Production readiness

- ✓ 7,200+ LOC production backend · 14 testing iterations passed via automated agent

- ✓ Multi-auth (Email + Google + Phone OTP) · workspace isolation · encrypted tokens
- ✓ Real publishing on LinkedIn, X, Facebook, Instagram, WhatsApp, SMS, Email, Blog
- ✓ Real Meta Ads with `ads_management` scope verification + per-user mock-mode override
- ✓ Razorpay live-key swap path (admin-only, with verification)
- ✓ Resilient website fetcher (3-strategy fallback for legacy SSL + Cloudflare WAFs)
- ✓ Onboarding wizard with auto-jump to next undone step
- ✓ Super Admin Console with MRR tracking + audit log
- ✓ Mobile responsive · public Free SEO Audit lead magnet

Roadmap (next 90 days)

- [ ] WhatsApp Business API production approval (Meta verification)
- [ ] Live Razorpay KYC + production keys
- [ ] Per-user Meta Ads safety rails (max-daily-spend cap UX)
- [ ] ChatOps: Slack `/slash` + Twilio inbound WhatsApp
- [ ] Beta cohort of 25 paying customers
